

## **Tomislav Unkašević**

Tomislav Unkašević graduated from the Mathematical Faculty in Belgrade. He worked in the Institute for Nuclear Sciences –Vinča, Department for Computer sciences, and now works in the Institute for Applied Mathematics and Electronics. Research areas represent election algorithms in fault tolerant systems, the multiprecision arithmetic, data protection in computer systems and cryptology.

Tomislav Unkašević je diplomirao na Matematičkom fakultetu u Beogradu. Radio u Institutu za nuklearne nauke Vinča-grupa za računarsku tehniku a sada u Institutu za primenjenu matematiku i elektroniku. Oblasti rada su algoritmi izbora u sistemima otpornim na otkaze, algoritmi multiprecizne aritmetike, zaštita podataka u računarskim sistemima i kriptologija.
